Hi Coreena,

I found my notes from Rob for this file. Here is the wording of the condition he would like to see for developments. Please let me know if you can work with this:

Should previously undocumented archaeological resources be discovered, they may be an archaeological site and therefore subject to Section 48 (1) of the Ontario Heritage Act. The proponent or person discovering the archaeological resources must cease alteration of the site immediately and engage with SON Archaeology to pre-consult prior to obtaining a licensed consultant archaeologist to carry out archaeological fieldwork, in compliance with sec. 48 (1) of the Ontario Heritage Act and in keeping with the Archaeological Standards of the Saugeen Ojibway Nation.

Karen

Hi Karen,

Following up on the email below. I would like to send my report to the director today if possible and just need to confirm if SON has an interest before finalizing. Further details are provided in the emails below.

Thanks,
