

AMO DRAFT TEMPLATE MUNICIPAL CANNABIS POLICY STATEMENT

Draft Template Municipal Cannabis Policy Statement

Draft Municipal Policy Statement Template:

The template can be used by a municipality that has chosen to allow retail sales of recreational cannabis.

Purpose & Vision

The purpose of this policy statement is to provide a format for municipal government input to the Alcohol and Gaming Commission of Ontario (AGCO) as well as help prospective recreational cannabis retailers in their consideration of location of cannabis retail stores in (name of municipality).

The AGCO is the provincial authority that licences cannabis retail operators, authorizes cannabis retail locations and licenses senior store staff. Municipal governments have no licensing authority.

The AGCO regulates and reviews all aspects of the retail operation including municipal and public input, that the proposed store location is consistent with the public interest as defined in the regulations.

The Municipality ofhas chosen to allow retail sales of recreational cannabis. The following provides municipal staff with guidance on commenting to AGCO when notice on a specific proposed cannabis retail store site is provided on the site location.

Principles for Cannabis Retail Store Locations:

Relationship to Other Applicable Law:

- **Land Use Planning:** The provincial licensing process does not remove the requirement to comply with the zoning by-law and other municipal planning documents. The definitions within the municipality's Official Plan and Zoning By-law are applicable to all retail, including cannabis retail stores. Retail sale of cannabis from a provincially licensed store is legal and is a permitted use in the retail zones.
- **Municipal Building Inspections:** while the licensing of the store operation is the responsibility of the AGCO, the Building Code applies to cannabis retail store locations. Therefore, where a building permit is required, the building inspector will undertake duties as usual. Fire Code compliance is also mandatory.

For the purposes of this policy statement, a cannabis retail store shall mean a store licenced by the AGCO.

1. Cannabis Retail Stores and Sensitive activities:

In order to help ensure public health and safety, protect youth and reduce illegal sales, retail cannabis stores are discouraged where nearby properties are designed to serve youth including

The policy can address types of activities where youth or the potential for illegal sales or health risk exist. Please note that Ontario Regulation restricts a cannabis retail store from being located within a distance of 150 meters of a public school or most private schools. The municipality cannot adopt a greater distance. The distance buffer would be measured from the property line, if the school is the primary or only occupant of a building; or the boundary of any space occupied by the school within the building, if the school shares space, like in a mall. This distance buffer would not apply to private schools that hold classes online only, or to First Nation schools located on reserve.

The municipal government may want to suggest other youth facilities such as libraries and community centres if appropriate, or other sensitive facilities that serve persons with mental health or addiction challenges.

The policies cannot be so restrictive that it is impossible to locate a store. Nor can the policy state a specific number of stores permitted.

It is recommended that should the municipal government choose a separation distance from a sensitive use that it be a number, not a range and that a rationale for this distance be provided.

Municipal governments should note that municipal density restrictions on cannabis retail stores are not permitted under the legislation or regulations. However, it is possible that the number of cannabis retail stores in one area could in the future be considered under the public interest criteria in the regulations and merit comment from the municipal government and community.

2. Cannabis retail stores should not be permitted in:

Any prohibitive statements must be considered through the lens of eliminating illegal activity, public health and safety or protecting youth and the regulatory definition of the public interest.

Retail locations, if retail is allowed in a zone other than a commercial zone, such concerns may be noted.

How does this prohibition help youth, create a safer environment or limit illegal activity? A municipal government may choose not to have any prohibitions.

3. Attached is a map showing the retail/commercial zones of the municipality and the activities identified in Section 1 above.

A map showing where retail is permitted and the locations of the activities identified in the first section will be very helpful to the AGCO. Municipal governments may choose to provide some sample separation distances as concentric rings around the activities such as addiction treatment facilities etc. to provide sample set backs. The Ministry of Education is working to identify all schools however; municipalities could also provide this information.
