Dear Warden Charbonneau, Council and Staff:

The Ad Hoc group "United Housing for All" in the municipality of Saugeen Shores wishes to thank you for having the foresight to establish the "Smart Commute" app.

This ride sharing app which matches drivers with riders will hopefully increase transit options which are definitely lacking in Bruce County. It is a cost-effective option which should reduce single-occupancy trips and help to connect residents in our smaller communities.

We look forward to news of the effectiveness of this initiative and to other future measures to improve transportation options in Bruce County.

Yours respectfully,

June Van Bastelaar on behalf of United Housing for All
