Early Literacy Programs: Programs for babies, children, and parents that develop pre-reading skills	Story Time Adventurers	This is a partnered program with EarlyON. Carleen from EarlyON brings a different craft and information and I contribute reading materials, information as well as additional craft supplies for the parents and children. We engage parents in making learning tools and keepsakes. This month was all about fine motor skills such as threading toys onto rope. We sang songs and read stories. Eight people attended two programs.
